

Q3 2023

Introduction to Coremont

For investors seeking alpha, Coremont simplifies complex decision-making and provides insight, leading the way to better outcomes.

With Clarion, its cloud-based portfolio management system, at the centre, Coremont provides complete support of the investment management lifecycle. It's our mission to equip clients with the technology and data to make timely and informed decisions when faced with unexpected market events, and manage risks at micro and macro levels.

Designed by traders, for traders, Clarion is an institutional grade solution with full hosting of data and models across rates, fixed income, credit, fx, equities and commodities, including extensive derivatives coverage. Clarion supports clients operating at a large scale in terms of trading volumes and breadth of instrument types.

Key facts about Coremont

- 20+ years' financial markets experience harnessed by a fast-growth FinTech
- Led by CEO, Jev Mehmet, Coremont's leadership team brings strong experience in scaling technology companies
